Productos Congelados: Frutas, vegetales, purés y zumos

Los productos congelados se cosechan en su punto óptimo de maduración, conservando su valor nutritivo intacto al ser congelados. Esto garantiza que obtendrá los mismos beneficios de vitaminas y minerales que al consumir frutas y verduras frescas.

Además, el empaquetado se realiza de manera cuidadosa y más higiénica. Las frutas congeladas no contienen conservantes químicos, a diferencia de muchos alimentos frescos.

Estos alimentos están disponibles durante todo el año y son muy fáciles de almacenar y transportar.
